WHAT IT DOES:

Transcendence is the first of a range of natural essential oil perfumes designed to invigorate the senses.

The word transcendence is the act of rising above into a superior state. Something we could all benefit from day-to-day. Our blend of powerful essential oils helps you do just that without using artificial fragrances.

Unlike standard alcohol based fragrances, Transcendence preserves the natural integrity of ingredients so your body is still able to recognise and communicate with their powerful properties.

More than a beautiful scent, our non-toxic roll-on perfume stimulates the olfactory system evoking a sense of calm and heightened wellbeing. It will move you in a way no other perfume can.

THE GOOD STUFF:

Santalum Spicatum (Sandalwood essential oil), Pelargonium Graveolens (Geranium Bourbon essential oil), Pogostemon Cablin (Patchouli essential oil), Lavandula Angustifolia (Lavender essential oil), Cananga Odorata (Ylang Ylang essential oil), Myristica Fragrans (Nutmeg essential oil), Helianthus Annuus* (Sunflower oil), Mixed Tocopherols – from non-GMO soy sources (Vitamin E).

*Certified organic ingredients

Skincare your body can trust™

A close-up photograph of a plant with vibrant green, glossy leaves and clusters of small, tubular flowers in shades of pink, red, and white. The background is softly blurred.

TRANSCENDENCE™

**WORKS
WELL WITH**

Love Your Body Oil. Both products share many of the same essential oil notes. Using them together will extend the scent of the perfume throughout the day.

HOW TO USE ME:

Our Signature Blend perfumed pocket oil is an instant mood elevator. Apply to pulse points on neck, wrists and inner elbows for a powerful boost to well-being anytime, anywhere.

REMEDIAL BENEFITS:

The natural ingredients don't burden your immune system.

The scent comes from the pure essential oils in the product that support wellness when inhaled. The scent is not a natural "derivative". It is from pure essential oils.

You are less likely to experience skin irritations and allergies when using an all natural essential oil perfume.

Frequently Asked Questions:

Why is Transcendence natural essential oil perfume preferable to the big brands perfumes?

Traditional perfume studies have linked synthetic perfumes to migraines, allergy symptoms and asthma.

Phthalates are used in 75% of perfumes to extend their life and reach of the scent and have been linked to hormone disruption in the body.

In what other ways is the perfume beneficial?

The essential oil perfume has therapeutic and mood enhancing properties that engage your senses and have real effects on how you feel.

How often do I need to reapply the essential oil perfume?

Apply it as often as you like. To extend the scent of Transcendence, we recommend pairing it with Love My Body oil as they contain similar notes. When you use the body oil after showering and finish your grooming routine with Transcendence, you'll find your skin maintains the scent throughout the day.

What's its shelf life (unopened and opened)?

The product has a 2 year from manufacture use by date on the tube but is best used within 12 months of opening.
