

Skincare your body can trust™

EPIPHANY™

ESSENTIAL OIL PERFUME

WHAT IT DOES:

EPIPHANY – AWAKEN THE MOMENT.

Epiphany is unlike any perfume we've created. Its scent is like a smouldering fire of warmth and spice. It releases earthy notes, the kind you liken to the smell of a forest after it rains. But more than this, it's a natural perfume that will move you emotionally and energetically.

Black Pepper to awaken your senses, Oak Moss to keep you calm and grounded, Cucumber for refreshment and Petitgrain for a touch of herbaceous elegance.

It's a wonderful, natural way to revive your mood and take you into the evening.

THE GOOD STUFF:

Evernia Prunastri (Oak Moss Absolute), Piper Nigrum (Black Pepper essential oil), Citrus Aurantium Amara (Petitgrain essential oil), Cucumis Sativus (Cucumber oil) Carthamus Tinctorius* (Safflower oil) and Mixed Tocopherols from Non-GMO Soy sources (Vitamin E oil).

*Certified organic ingredients

SKU: 9347246003091 **Size:** 9ml/.304 fl.oz **RRP:** AUD\$44.95

Skincare your body can trust™

EPIPHANY™

WORKS WELL WITH

Love Your Body Polish. Using them together will help bring out the notes of Sandalwood and Patchouli for an extra de-stress and calming effect throughout the day.

HOW TO USE ME:

Directions: Shake well before use. Apply a small amount onto pulse points which emit the most heat like your wrists, inner arms and neck for a powerful boost to well-being anytime, anywhere.

REMEDIAL BENEFITS:

Oak Moss essential oil – Evokes the feeling of being fully abundant. It is deep, earthy and grounding.

Black Pepper essential oil – Warming and spicy. The scent is stimulating and awakens your body.

Petitgrain essential oil – A fresh, floral and often herbaceous aroma. Most commonly know for its ability to promote relaxation when smelt.

Cucumber oil – Hitting your olfactory upfront, cucumber gives us an instant sense of refreshment, lightness and subtle sweetness.

Frequently Asked Questions:

Why is Epiphany natural essential oil perfume preferable to the big brands perfumes?

Traditional perfume studies have linked synthetic perfumes to migraines, allergy symptoms and asthma.

Phthalates are used in 75% of perfumes to extend their life and reach of the scent and have been linked to hormone disruption in the body.

It is also alcohol free and vegan.

In what other ways is the perfume beneficial?

The essential oil perfume has therapeutic and mood enhancing properties that engage your senses and have real effects on how you feel.

My Epiphany perfume has some sediment when I let it stand for a while?

We use pure botanical extracts to gain the maximum benefits and so we don't process them at all. Processing can reduce the therapeutic benefits of the extracts. The sediment is the precious extract from Oak Moss. Simply warm in your palm and gently shake it to reveal the deep warming aroma.

How often do I need to reapply the essential oil perfume?

Apply it as often as you like.

What's its shelf life (unopened and opened?)

The product has a 2 year from manufacture use by date on the tube but is best used within 12 months of opening.
