

AUSSIE® BRONZE

#SUNOPTIONAL

BE GORGEOUSLY BRONZED INSTANTLY...

DIRECTIONS:

- Apply Aussie Bronze in sections over your body.
eg: Calf - just above your ankle to your knee, feather down over your feet
- Gently smooth in as you would a moisturiser
eg: horizontally and vertically
- Continue to apply Aussie Bronze in sections as above over the rest of your body.
- Apply a generous strip big enough for application on that area
eg: Calf or arm
- Allow 1 minute to dry (touch dry before dressing)
- Wash your hands with hand wash to remove any excess Aussie Bronze from your hands.
- Use sparingly over any areas prone to dryness, discolouring or creasing.
eg: knees, ankles, elbows, neck, armpits
- To remove Aussie Bronze - simply shower with body wash and sponge
- The Aussie Bronze formulation is a dark colour when pumped from the bottle. Upon applying to the skin, the mineral based colour will blend into your skin's natural tone, leaving a glowing, healthy tan.

Shake bottle before use

If irritation is caused, discontinue use immediately

Caution - may wear off on light clothing or towels.

- Luxurious moisturising formula that tans in 1 easy application
- No developing time, an immediate glow
- Ideal for sensitive skin
- Non-Comedogenic will not block or clog pores
- Summery - naturally derived - fragrance of coconut & lime
- Perfect to use before and after laser treatments
- Mineral based colour blends to your skin's natural tone
- Transfer resistant. Lasts up to 24 hours.
- Washes off in the shower
- DHA + Toxin Free
- Vegan + Cruelty Free
- No staining. No orange. No smell

WWW.AUSSIEBRONZE.COM

Can Aussie Bronze be used on the face?

Yes, it is safe to use on your face.

As there is just one shade, how does it work with different skin tones?

Aussie Bronze is a mineral formula, which naturally adjusts to your skin's natural tone.

Am I able to get a darker tan with Aussie Bronze?

Yes! You can intensify the colour by layering Aussie Bronze. Ensure the first layer is totally dry before applying the next layer. For best results, apply in one generous layer

Can Aussie Bronze be used on very sensitive skin?

Absolutely. Aussie Bronze does not contain DHA whatsoever (not even in a natural or organic form), which often reacts to sensitive skin. Aussie Bronze is also Non-Comedogenic; it will not block or clog pores.

How does Aussie Bronze colour if it doesn't contain DHA?

Aussie Bronze colour is formulated using the finest cosmetic/food grade oxides and natural Mica's.

Are there any hidden nasty ingredients in Aussie Bronze?

NO! Aussie Bronze is a plant based, natural tinted moisturiser for the face and body. Please refer to our website for a full list of ingredients.

Is there parfum in the ingredients?

NO! Our fragrance is a blend of essential oils and natural fragrance oils.

Will Aussie Bronze rub off onto clothes?

When completely dry to touch, Aussie Bronze is transfer resistant. As with all body bronzers and self-tanners one should always be a little cautious when wearing white or other light coloured materials

What happens if Aussie Bronze gets onto clothes?

Aussie Bronze will wash out. Just wash clothing as normal, following garment washing instructions.

What happens if I sweat?

Aussie Bronze is water resistant. However if you sweat or are wet and rub with a dry towel/cloth the product will come off. Aussie Bronze is designed as a wash-off product.

Like other bronzers, do I require a mitt or gloves to apply?

No, for best results apply Aussie Bronze as you would a moisturiser; pump a generous strip of the product onto the section of your leg or arm and then continue in sections over the face and body.

Do I need to exfoliate before using?

No, The Aussie Bronze formula is nourishing and hydrating for your skin.

Does Aussie Bronze get streaky?

Should you find there are streaks, this will be due to not having applied enough product. Simply remove the product after application with a damp dark coloured cloth and when the skin is completely dry, re-apply with a more generous amount.
