ABOUT US

Australia is blessed with the world's best natural plant oils. The Australian Natural Soap Company use our own special soap-making process to bring these incredible ingredients to your bathroom.

All our handmade soaps are palm oil free, cruelty free, paraben free, sulfate free, detergent free, biodegradable & vegan.

They have been carefully crafted to gently cleanse the skin of impurities without the use of harsh ingredients such as sulfates or artificial fragrances that can be drying and irritating. Instead each soap is cured naturally for four weeks so that it retains the nourishing and moisturising properties of the plant oils.
