WHAT IT DOES:

Like your smile, your eyes have the power to brighten a room and clearly convey how you're feeling. So keep them looking radiant, fresh and full of life with our Intensive Care Eye Serum.

Our highly potent yet lightweight serum improves elasticity and helps to regenerate skin cells. This is especially important as the skin around your eyes is 7-10 x thinner than the skin on your face. Providing a soothing and refreshing feeling it instantly revitalises under-eyes. Developed to address fine lines, wrinkles, restore and retain moisture as well as soothe the skin's surface naturally.

THE GOOD STUFF:

Silybum Marianum (Milk Thistle oil), Cucumis Sativus Seed Oil (Cucumber oil), Pelargonium Roseum (Rose Geranium essential oil), Lavandula Angustifolia (Lavender essential oil), Salvia Hispanica (Chia seed oil), (Vit E, Mixed Tocopherols from Non-GMO soy sources), Coffea arabica L (Green coffee seed)

*Certified Organic

Skincare your body can trust™

ICU™

WORKS
WELL WITH

Coupled with the Love Your Face serum, provides specialist all over face hydration and anti-wrinkle defence.

HOW TO USE ME:

Apply a drop or two of the serum onto your fingertips and lightly dab under your eyes morning and night. Take care not to get the serum in your eyes or on your eyelids – as you blink it may travel into your eye, use any remaining oil on your neck - don't waste a drop.

REMEDIAL BENEFITS:

Cucumber seed oil - contains a significant percentage of oleic acid, linoleic acid and phytosterols. These work in combination to strengthen the skin's lipid barrier to restore moisture, support skin cell regeneration and elasticity.

Milk Thistle oil – used for over 2,000 years predominantly in the Mediterranean, Milk Thistle has a range of incredible health benefits. Specifically for external use on the skin it's considered a potent antioxidant – removing pollutants and free radicals out of the body. Its protective qualities mean it's highly effective at reducing the signs of aging.

Green coffee seed - Chlorogenic Acid present in green coffee beans can reduce the effects of free radicals in our body up to 10 x than regular green tea. Aside from high levels of antioxidant agents, green coffee seed is also rich in fatty acids and esters including Arachidic Acid, Linoleic Acid and Oleic Acid, which nourish and moisturise skin to stop sagging, discoloration and other ageing symptoms.

Frequently Asked Questions:

Can I apply it to my eyelids?

We recommend below the brow line and below and around the lower eye lid – not the upper eyelids.

Why is Cucumber oil beneficial for the eye area?

Cucumber Seed oil possesses a remarkable amount of phytosterols and studies show phytosterols help the skin strengthen its lipid barrier restoring proper moisture balance, smoothing the skin's surface and improving skin elasticity. Phytosterols are also known for their ability to nourish and stimulate to encourage regeneration of healthy skin cells.

What's its shelf life (unopened and opened)?

The product has a 2 year from manufacture use by date on the tube/bottle but is best used within 12 months of opening.

Is it suitable for anywhere else?

Yes it can be used all over the face, but especially the neck area with any remaining oil - so you don't waste a drop. Apply with upward strokes on your neck.
