WHAT IT DOES:

Think of our Beard Oil like 'man oil'. It's good for all those itchy skin, dry jawline and frizzy facial hair symptoms most men don't like talking about.

Whether you have a beard or not, this stuff gets to the bottom of the problem even if it's beneath a hunk of hair. You see; our Beard Oil treats the skin not just the beard. It's a highly potent yet lightweight oil that calms, moisturises and heals dry epidermis – perfect for any guy. Plus if you let your man stubble grow freely, our Beard Oil will help prevent frizz, soften and nourish follicles and put a stop to pash-rash.

What does it smell like you're wondering? It's a combination of earthy and invigorating natural scents that exude manliness and lasts all day.

THE GOOD STUFF:

Simmondsia Chinensis (Jojoba oil*), Camellia Oleifera Seed Oil (Camellia Tea oil*), (Mixed Tocopherols from Non-GMO soy sources), Vitis Vinifera (Grapeseed oil), Cedrus Atlantica (Cedarwood atlas essential oil*), Citrus Aurantifolia (Lime essential oil), Citrus Aurantium (Petitgrain essential oil), Melaleuca Leucadendra (Cajaput essential oil*)

*Certified Organic ingredients.

Skincare your body can trust™

BEARD OIL™

WORKS WELL WITH

Balm of Ages for overall beard
nourishment and protection.

HOW TO USE ME:

Rub 4-6 drops into your palm, massage upward into your beard from the neck then pull your fingers through the beard to gently condition the skin beneath.

Best used daily after showering when skin is warm. It's highly effective as an all over face moisturiser. This deeply moisturising formula is also an excellent skin restorer for shavers with sensitive skin.

REMEDIAL BENEFITS:

Organic Jojoba – softens and moisturises the skin beneath facial hair as well as hair follicles.

Organic Camellia Tea – soothes skin irritations and itching.

Vitamin E – improves circulation to stimulate hair growth.

Organic Grapeseed – a light moisturising oil that penetrates easily and reduces beard frizz.

Organic Cedarwood – contains natural antiseptic, antibacterial, astringent and calming properties.

Petitgrain – known for its calming and deodorising properties. Effective for clearing skin irritations and beardruff.

Lime – refreshing and cooling on the skin with antibacterial, anti-fungal and antiseptic properties.

Organic Cajaput – has been traditionally used for its antiseptic and analgesic properties by Australian Aboriginals.

Frequently Asked Questions:

Do I need a beard to use this product?

No, many shavers use our Beard Oil to soothe their skin from irritation and sensitivity from frequently using a blade. The oils deeply nourish the skin and help prevent it drying out or becoming itchy.

Why do you need a beard oil?

Beard hair draws moisture away from the skin, and when exposed cold or dry temperatures beard hair dries out further, leaving your skin dry and your beard hair brittle. Beard oil hydrates and nourishes the hair and the skin beneath it protecting it from the changes in climate while sealing in remedial oils that sooth and moisturise with a scent the exudes manliness.

Will this make my beard softer?

Totally. And better than that your partner won't complain about pash rash, which is one of the top reasons why guys shave off their beards. When your beard is well groomed and your skin beneath hydrated and nourished by Beard Oil your beard will glisten with a health and feel smooth.

What's its shelf life?

The beard oil has a 2 year shelf life but is best used within 12 months of opening. The useby date is on the bottom of the pack.
