WHAT IT DOES:

You might be wondering why our Cacao Revelation Mask isn't wet. Well there's a very good reason its long been known that the properties in dry ingredients become activated when in contact with water. The same principle applies to our facemask. By keeping the ancient therapeutic properties of Cacao, White Kaolin Clay and many more in a dry state they'll only become active when you're ready to use them. Keeping them fresh and ready to go. Quite the revelation huh?

- **Draws impurities from pores**
- **Evens skin tone**
- **Stimulates blood circulation**
- **Reduces the appearance of wrinkles**
- **Reduces inflammation**
- **Smooths and refines complexion**
- **Treats acne and problem skin**

THE GOOD STUFF:

White Kaolin Clay (White Kaolin Clay), Theobroma Cacao (Cocoa), Pink Kaolin clay (Pink clay), (Aloe Vera powder), Camellia Sinensis (Green tea powder), Commiphora Myrrha (Myrrh powder), Olea Europaea (Olive powder).

Skincare your body can trust™

COCAO REVELATION MASK

WORKS WELL WITH

Love My Face Serum as the super hydrating and nourishing final step to the deep skin cleansing process.

HOW TO USE ME:

Take one teaspoon of mask powder and blend with a little water in our Revel bowl to form a paste using our mask brush. Apply to your face and neck with our mask brush, avoiding eye area. Relax for 15-20 minutes then remove the mask using a with warm muslin cloth. Apply the mask twice weekly or as needed.

REMEDIAL BENEFITS:

Raw Organic Cacao – packed with antioxidants to repair skin and reduce inflammation, promoting healthy cell growth.

Pink Kaolin Clay – gently stimulates blood circulation and draws excess oils from pores.

White Kaolin Clay – more than a oil extractor it's rich in calcium, silica, magnesium and zinc.

Organic Aloe Vera Powder – high in antioxidants, vitamin C and minerals that heal damaged skin.

Green Tea – restores moisture to renew the skin.

Olive Leaf – stimulates collagen production and heals the skin.

Myrrh Gum powder – reduces the appearance of wrinkles, regenerates cells and reduces inflammation.

Frequently Asked Questions:

Why is the mask a powder?

The powerful ingredients remain fresh until you add water to it, at which point they are activated. We also do not need to add any preservatives, antifungal or other chemicals associated with products that are premixed.

What's the benefit of mixing the mask myself?

A powder mask also allows you to regulate the thickness of the paste before applying it to your skin. This is helpful particularly if you have sensitive skin and you'd prefer a thinner paste. Also we don't need to add any preservatives to a dry powder.

What are the benefits of Cacao as a face mask?

Raw Organic Cacao is packed with antioxidants to repair skin and reduce inflammation, promoting healthy cell growth.

How will my skin look afterwards?

When you apply the mask before a night out your skin will look tighter and have a more radiant glow.

How often should I apply the mask for best results?

We recommend twice a week.

Why are parts of my skin slightly red after use?

Redness occurs because a fresh supply of circulation has been brought to the surface of your skin.

Is it suitable for teenagers?

It is a great product for teenagers as the clay provides a deep clean to address skin concerns like blemishes and excessive oiliness.

What's its shelf life (unopened and opened)?

The product has a 2 year use by date from manufacture but should be used within 12 months of opening but please be careful to keep the remaining product dry and not allow any water to get into it as this will compromise the product.

How long will one tub last?

With weekly use the mask jar will last 3 months.
